THE

POST-OFFICE ANNUAL DIRECTORY,

AND CALENDAR,

FOR

1835-6.

THIRTIETH PUBLICATION.

EDINBURGH:

PRINTED BY BALLANTYNE AND CO.

FOR THE LETTER-CARRIERS OF THE GENERAL POST-OFFICE.

1835.

[Entered at Stationers' Hall.]

The Proprietors of the Edinburgh Post-Office Directory beg to return their grateful acknowledgments for the encouragement with which their labours have hitherto been received by the Public, and at the same time to express a hope that the efforts which they have this year made to render their Publication extensively useful, will meet with similar approbation. No labour nor expense has been spared to promote its utility; the utmost care and attention have been exerted to procure authentic information; and whilst they trust that their zeal and assiduity have not been fruitless, it will be their endeavour, in the future editions of the book (which they pledge themselves to continue, notwithstanding any opposition), to employ the opportunities afforded by their situation to collect every species of information calculated to prove useful to men of business, to merchants and traders, and to the public in general. The Letter-Carriers possess facilities and advantages peculiar to themselves for the preparation of a work of this nature: and as it is equally their interest and their duty to deserve the favour of the public, they will use every honest and fair means to attain so desirable an object.

^{* *} Copies of the Map may be had by applying to any of the General Post
Letter-Carriers, or to R Grant and Son, Booksellers, 82, Prince's Street.

The letters on the Map refer to the parishes, and the figures to the municipal districts.

GENERAL TABLE

FOR FINDING THE TIME OF HIGH WATER.

RULE-Take the time of High Water out of the Calendar for the given day, and the time in this Table opposite to the given place, and add or subtract them according as the Table directs.

It must be observed, that when the sum exceeds 12 hours, 12 hours must be rejected, and the remainder is the time of the Tide in the afternoon, if the morning Tide at Leith was taken, -otherwise, it is the following morning Tide at the place. When the number to be subtracted is greater than the time of the Tide at Leith, it must, in this case, be taken from 12 hours, and the remainder added to the Leith time will give the time at the place for the morning Tide, if the afternoon Tide at Leith was taken, -otherwise, it will give the preceding afternoon

Attendance is given from 9-30 m. to 9-15 a. daily, Sundays excepted.

LATE DELIVERY OF LETTERS ._ Represestations having been made of the time occupied by the LETTER CARRIERS in the DELIVERY of their LETTERS through the City, the inconvenience has been ascertained to be in a great measure, if not entirely, attributable to the delays experienced by the Carriers at hall doors, owing to servants not answering the bells, and in some cases, by the servants not being provided with money to pay the postage. Instructions have been issued to the Letter Carriers, to rap or ring at each hall door twice, pausing an instant. The application of the Carrier, therefore, cannot be mistaken; and the public are earnestly requested to aid the Postmaster-General in his Grace's anxiety to expedite the general delivery of the correspondence, by obliging servants to answer immediately the Carrier's application, and to have the servant previously provided with sufficient sums to discharge their demands.

MAIL-COACH ROUTES FROM EDINBURGH,

SHOWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE UNDERMENTIONED PLACES.

THE following Lists will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trilling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh.

3. That each licensed Carriage shall be always provided with horses in good condition; and the Carriage, including the cushions, steps, springs, blinds, windows, and check strings, as also the harness of the horses, shall always be kept in good order and repair. The coachman, when driving, shall always keep the check string in his left hand.

5. That the Stances shall be South College street, Tron Church, Prince's street East and West ends, George street between Hanover and Frederick streets, Queen street East and West ends, and Union place, or at such other places as may from time to time be appointed. While the Carriages are at the Stances, the coachman shall either sit on the box, or stand at the horses' heads.

6. That there shall not be fewer than six Carriages at each Stance every week-day at 9 o'clock, A.M. and on Sunday, one-fourth of the Carriages licensed shall attend at each Stance from 10 A.M. to 10 P.M. in rotation of numbers.

70, CORNHILL, and 5, WATERLOO PLACE, LONDON.

Directors.

The Honourable WILLIAM FRASER, -- Chairman.

Colonel Lushington, C.B., - Deputy Chairman.

Foster Reynolds, Esq. William Pratt, Esq. John Kymer, Esq. Francis Kemble, Esq. Capt. Geo. Harris, R.N., C.B. Charles William Hallet, Esq. William Edmund Ferrers, Esq. Thomas Fenn, Esq. G. Farren, Esq., Resident Director.

Office in Edinburgh,—4 DUNDAS STREET, HUGH FRASER, W.S. Agent.

The following are among the advantages which this Company offers to the Insuring Public: —
1st, The rates of Premium, especially for ages under fifty, are the lowest ever hitherto published, in proof
of which a comparison is confidently invited with the Tables of any other Office in the United Kingdom.

2d. The facilities afforded to all classes of insurers, by having it in their power to adopt either an even rate for life, an ascending scale, or a descending scale as may suit the convenience of parties; or, further, an alternative plan, by which one-third of the even rate of premium (on policies for the whole of life) may remain uspaid, and be deducted from the sum insured at the end of life, with interest at the rate of four per cent.

3dly, The adaptation of the tables to any service, or to any country in the world; and it will be found that in foreign insurances, also, the extra rates charged are considerably lower than those of other offices.

4thly, the Insurance of persons of advanced age, and also the undertaking of risks that might be rejected by other offices at rates founded upon the ascertained decrement of life by the various diseases peculiar and incidental to different climates.

5thly, The great facility afforded for the transfer of policies, the Directors, instead of requiring assignments of these to be executed, in every case issuing a new policy in name of the intended assignee, on surrendering the former, and merely paying the price of the new stamp.

The following are selected from the Even Rates :-

LIFE DEPARTMENT.

While the Premiums are as moderate as is consistent with security, the Holders of Life Policies are entitled to periodical additions from the surplus Premiums, which may be applied either to increase the sum payable at the death of the Insured, or to reduce the future Payments of Premium. That this is a very substantial advantage will be perceived from the following

TABLE,

Showing the additions made to Life Policies for L. 1000, effected in London, or through an Agent in Great Britain, which have been in force for the Fourteen Years ending at Christmas 1830. Proportionate additions have been made to Policies for other Amounts, or which have been in force for shorter periods.

Date of Policy.	Sum as- sured.	Annual Premium.	Age at Commencement.	Amount that has been added to the Sum assured, payable at the Party's death.
Dec. 25, 1816 do. do. do. do. do. do. do. do.	L. 1000 1000 1000 1000 1000 1000 1000 10	L. s. d. 21 15 10 24 0 10 26 14 2 29 18 4 33 19 2 38 19 2 45 6 8 53 3 4 63 13 4	20 25 30 35 40 45 50 55 60	L. 230 236 244 256 278 304 340 382 449

Thus, by the above table, it will be seen, that a person insuring L.1000 at 20 years of age, at the end of 14 years will have paid L.305, 1s. 8d. of Premium; and, were he then to die, his heirs would receive L.1230 instead of L.1000.

These additions will, on comparison, be found as great as have been made by any other Insurance OFFICE WHATEVER.

As to the Rates charged by the Company, it may suffice here to say, that the Tables adopted by the Directors were originally framed upon the sound principles of mathematical computation; and the practice of the Equitable Society has put them to the unerring test of long and extensive experience.

FIRE DEPARTMENT.

The assurance of every species of property from loss or damage by fire is undertaken by the Company on highly favourable terms.

The following are the rates for all policies where the premium exceeds 5:.

Common Risks,

1s. 6d. per cent.

Hazardons ditto, 2s. 6d. Doubly Hazardous, 4s. 6d.

The duty on Farming Stock Assurances being wholly taken off, all Farming Stock may be assured at the low price of 2s. for every L. 100, without any restrictive clause whatsoever, the former charge having been 5s. A payment for rent is made by the Company in case of Loss on Buildings, without any extra premium.

Proposals, fully explanatory of the principles and rates of the Company, may be had at the Company's office, No. 29, Heriot Row, Edinburgh, where all letters on the subject of Assurances may be addressed to the Committee, or to their chairman, Mr Campbell.

LIFE DEPARTMENT.

The Caledonian Insurance Company offers to the public the security of an AMPLE SUSSCRIBED CAPITAL, as a GUARANTEE FUND, together with all the advantages resulting from a participation of profits on THE MUTUAL ASSURANCE PLAN, without the risk which attends every such scheme in the outset.

For the convenience of those who prefer a certain future benefit, at a low rate of premium, the Company grants policies, without participation in the profits, at diminished rates.

Insurances may be effected either for the whole period of life, or for one year, or for seven years; and the premium may be made payable either annually, or half-yearly, or quarterly, which must prove a great accommodation to many.

. No Charge is made for Entrance Money.

FIRE DEPARTMENT.

The Company insures houses, manufactories, rents, furniture, goods, and merchandise, farming stock, shipping in port or dock, and while building, or used in canals, and all other property, from loss and damage by fire, on the usual terms. A duty is payable to government of 3s. per cent on all property insured against fire, with the exception of agricultural stock, which is now exempt from duty.

This Society has for its basis, ECONOMY COMBINED WITH SECURITY—the terms of Assurances for Young and Middle-Aged Lives being much lower than those of any other Office which gives a bonus to the Assured; and a full statement of its affairs is annually made to the Share-holders and Policy-holders, who have a control over the Society.

Three fourths of the profits are now divided among those Assured on an equable scale, for the whole term of life, after the Policies shall have been in force four years; and eventually the whole of the profits will be so

divided.

A bonus was declared up to the end of 1833, which gave to Policy-holders, on an average, 16 per cent

upon the amount of premiums paid.

Endowments for children are granted, and Assurances on Joint Lives, Survivorships, Survivorship Annuities, as well as every species of Life contingency, at rates proportional to the nature of the risks, which are as low as possible compatible with security to the Assured.

Assurances are also effected, either by paying small premiums at first, and increasing them every five years, or by paying a high premium at first, subject to periodical abatements, and, ultimately, the payments to cease altogether. In fine, persons may be Assured in any way which may be best adapted to their circumstances

Medical Referees are appointed in most cities and large towns, and information may be obtained and Prospectuses and Tables had from the Agent,

The Edinburgh Life Assurance Company was originally formed exclusively on what is known as the Participation Principle, according to which, all persons assuring for the term of life, whose Policies shall have existed for five years, are entitled to participate in the profits of the Company;—but as, in many cases, the object of the Party assuring is to secure a fixed sum, by payment of a low Premium, without regard to additions, the original plan of the Company has been extended, by adopting also a Table of Rates without participation.

The large subscribed Capital, and the numerous and responsible body of Proprietors, afford inquestionable security to Assurers, who are thereby, as well as under the terms of the Policies, effectually protected from all liability,—while, from two-thirds of the Profits being allotted to those assured on the Participation scheme, they enjoy all the advantages of the Mutual Assurance System.

The Company effect Assurances for periods short of the whole of Life,—and also on joint lives,—and on the survivorship of two or more lives. The Premiums in all of these cases, as well as on Sugle Lives, may be paid in one sum at the outset, or periodically for a limited number of years only, in place of annually during the whole continuance of the Assurance. The rates corresponding with those different modes, in so far as not given in the Tables, may be learned on application at the Oilice.

The Directors purchase, at a fair price, Policies for the whole Term of Life, which shall have subsisted for three years, if the Holders should wish to discontinue the Assurance. Policies may be sold or transferred.

Attendance is given daily at the Office, where every information may be obtained.—The strictest secrecy is observed in regard to all business transacted with the Company

LIFE SOCIETY,

ESTABLISHED 1808.

ACCUMULATED CAPITAL EXCEEDING A MILLION AND A-HALF.

The benefits of Life Insurance are now so well known and appreciated by all classes, that it would be unnecessary to point out or expatiate upon them. To no class of the community is it an unadvisable step; and whatever present little inconvenience the curtailment of a limited income for this purpose may occasion is amply compensated by the immense prospective advantage to families and representatives. To those whose incomes expire with themselves, it is a security for a provision to their heirs, which many contingencies might have prevented their otherwise accomplishing.

Amongst the many Companies which an increasing knowledge of the benefits of Life Insurance has produced in this country, the Norwick Union Life Insurance Society holds are ever prominent place in extent of business, security, and liberality; and it is only necessary to remark the following among many advantages secured to the public by its constitution, to prove its superiority to most other offices of the same

nature.

In extent of business it is second only to the London Equitable Society, on whose model it was formed; and it has already accumulated a capital of upwards of a Million and a-half, constituting a real tangible Fund. The annual amount of Premiums is nearly L.200,000. A distribution of the whole profits takes place septennially amongst the insured.

In 1816, a Bonus of 20 per cent was declared on the amount of Premiums paid; in 1823, of 24 per cent; and in 1830, of 25 per cent,—the calculation at each period being made from the time of joining the Society. The lowness of its rates is of itself equivalent to an annual Bonus.

The following is a specimen of these rates for insuring L.100:-

FIRE SOCIETY,

This Society is wholly distinct from the Life. Property of every description is insured at the usual rates of 1s. 6d., 2s. 6d., 4s. 6d., &c. according to the risk. Losses by Fire may be substantiated before Local Committees.

* Thus, a person aged 30 last birth-day, may secure to his representatives at his death the sum of L.1000, together with the Bonus which may have been declared thereon, for an Annual Payment of L.25.

On the 31st day of December, 1840, and at the end of every Seven Years from that period, the profits divisible amongst the Assured will be apportioned amongst such of the Assured for the whole term of life, as shall have been so assured for the space of three years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward, to the period of the next septennial division, for the benefit of the Assured. For the amounts which shall be so apportioned, equivalent reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a Specimen Table of Bonuses, in even pounds, added to Policies of L.1000 each, which had been in force during the first ten years of the existence of the Society, and declared on the 31st December 1833, compared with the amounts of Premiums that had been received and improved at interest.

Note.—Due allowance must be made for extreme and intermediate ages, and the difference of years during which the Assurances have been in force; but the general distribution has been made on the principle, and according to the scale above given.

If any person should wish to discontinue the payment of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new Policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the life assured. And the person to whom such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the profits.

Persons who shall have been insured for the space of two years, in L 1000 or upwards, for the whole continuance of life, have the power of electing, either from among the Proprietors or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

The sums due on the Policies will be paid within three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom prospectuses may be had. A party may himself effect an Assurance by writing to the Actuary, or attending personally at the Society's Office, in Lincoln's INN FIELDS.

THE SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY is formed upon principles calculated to afford the greatest possible benefits to the assured. It is a Mutual Assurance Society, in which the whole profits belong to, and are periodically divisible amongst the Assured. In this respect it differs essentially from a Proprietary Company. In the latter, the profits are in some cases wholly, and in all others partly, divided amongst the Proprietors, who, as Partners, have nothing in common with those who effect Assurance with When the Lives are carefully selected, and the revenues prudently invested, experience has demonstrated that those profits are greatly beyond what is understood by such as are not intimately conversant with the subject. The numerous Proprietary Life Companies which have arisen,—the exertions made by them to procure business,-the dividends they have been enabled to pay to the Proprietors,-and the value of their Stock, demonstrate the extent of their profits. Any healthy person, therefore, who finds it expedient to have his Life Assured, and who resorts to a Proprietary Company, just gives away his Share of Profits, and he does so without any corresponding advantage whatever. For though Proprietary Companies hold it out as an inducement to join them, that they secure to the Assured the sum specified in the Policy, whether Profit be made or not, this is merely a nominal, but is no real, security, the fact being, that in every established Life Office, large profits have arisen. Such has been the result, partly because human life is ascertained to be of much greater duration than is assumed in those calculations, on which all well-conducted Life Institutions have cautiously and very properly proceeded, and partly because money can, by transactions in redeemable annuity, and otherwise, be improved to greater advantage than the rate of interest assumed in such calculations. No Proprietary Company, therefore, can possibly afford so great advantages as Mutual Assurance Societies do; for such Societies, by dividing the whole profits amongst the Policy Holders, assure the greatest possible sum at the lowest possible rate. In other words, they assure at prime cost. Accordingly, if it were said of any Mutual Assurance Society, that its rates are too high, it is an obvious answer, that granting they are so, it does not form a good reason for joining a Proprietary Company in preference to a Society, because all monies beyond what are absolutely indispensable for securing payment of the sums assured, are returned or compensated to the Contributors, either by corresponding additions to the sums specified in the Policies, or by making a corresponding diminution of the future Annual Contributions or Pre-The great practical effect, in short, of the Premiums being somewhat beyond the risk, is to create an additional guarantee for the stability of the Institution. Continued.

this Society.

(Scottish Equitable continued.)

The London Equitable, on the exact model of which the Scottish Equitable is formed, is well known throughout the Empire, and the Profits which that admirable Lastitution has divided, are familiar to every one at all acquainted with Life Assurance. In some cases, the bonuses or divisions of Profit have extended to more than four times the sum assured, an immense advantage, the whole or the greater portion of which has been lost by those who have resorted to Proprietary Companies.

The Premiums or Contributions required by the Sortist Equitable are somewhat lower than those of the London Equitable. It is not, however, on the lowness of the Premiums required, that the Sortish Equitable Life Assurance Society nuts forth and rest its claim to support. As here all the sortish Equitable.

Life Assurance Society puts forth and rests its claim to support. As has already been said, it is of small, or rather it is of no importance to the Members of a Mutual Assurance Society that the Premiums or Contributions are somewhat more than adequate to the payment of the sum assured, seeing that to the Members alone all the surplus is appropriated. The claim of the Society to a decided preference, therefore, is founded on the irrefragable fact, that from the very nature of the Institution, as it stands, no Company, or other Institution on a different principle, can warrantably offer to the Assured so great advantages as it does.

The utmost care is taken in the Selection of Lives,—the Establishment is economically conducted,—the

funds are profitably invested,—and a large surplus has already been realized, which, and the profits to be made in future years, will be divided periodically amongst the Policy Holders, reserving a portion thereof to meet contingencies, in terms of the Society's Deed of Constitution.

Every facility and accommodation, which any other Life Institution can safely afford, will be given by

ROBERT CHRISTIE, Accountant in Edinburgh, Manager.

ROBERT GIBSON, Secretary.

* .* By the Society's Deed of Constitution, two-thirds of all the Profits, which arise during the first ten years of the Society, are to be divided amongst those Members who assure during the first five years. There is thus a very great inducement to become assured during the current year, which is the fifth year of the Society.

In all benefit societies, with the exception of the Palladium, the Profit which is returned by way of Bonus is given to all the insured. In the Palladium it is only given to those who insure when under fifty years of age; consequently the profit on all lives being added to their policies only, will at once show how (combined with the prosperity of the Society) these additions have been greater than those given by any other.

The highest first Septennial Division ever given by any other Society has been 25 per cent on the Prerilums paid. The first Septennial Division of the Palladium was 44¹/₄ per cent, and judging from the present

state of the Society's affairs, the probability is, that the next Septembal Division will be fully as superior.

Those who insure before the expiry of this year will reap all the advantages which they would do by in-

suring in any other Society before that period.

Lives above fifty may also be assured, but they do not participate in the profits.

Power vested in the Assured.—The holder of a Life Policy effected for the whole term of the life of any person not exceeding fifty, will be entitled, after two annual payments of premium, to vote at General Meetings, viz. on a Policy for L.1000 one vote; L.2000 two votes; L.3000 three votes.

By this most important arrangement, the Assured obtain an effectual protection against an improvident application of the Capital and funds of the Society; which, with the ample subscribed capital and the accumulation of premiums, affords the best security for the payment of all just claims.

Travelling allowed.—All persons whose lives are assured in this office may pass and repass in time of peace from any part of Europe to another, by sea or land, without payment of additional premium.

This Incorporation is composed of a numerous, wealthy, and influential body of Proprietors; and affords unquestionable security to the public from the magnitude of its capital—a large proportion of which is invested in Government and real securities. By conducting its operations on an extensive scale, and over the whole empire, it is enabled to equalize those vicissitudes which may arise from the influence of local causes; and, from the success which has hitherto attended this National Establishment, it is now permanently placed on a secure basis.

FIRE DEPARTMENT.

Property, real and personal, of every description, may be insured on the most advantageous terms; common insurances of the first class at the reduced rates, and property involving more than ordinary hazard, at rates of premium commensurate with the value of the risks.

All Losses, when satisfactorily ascertained, are immediately paid.

LIFE DEPARTMENT.—PARTICIPATION IN PROFITS.

TWO-THIRDS of the profits are allotted at regular periods to the insured, WITHOUT BEING SUB-JECT TO ANY DEDUCTION FOR CHARGES OF MANAGEMENT. The first division will be made on 1st January, 1842. The remaining one-third will be reserved by the Incorporation as a compensa(Scottish Union continued.)

tion for undertaking the whole expense of management, and for the security afforded by their capital against all possible contingencies.

The profit will be divided on the most equitable principles, in the proportion that each surviving person has contributed to the profit Fund.

A reversionary sum, equivalent to the present bonus, will be added to the original sum insured; or a corresponding reduction will be made from the future annual premiums.

The general accounts of the incorporation are patent to the Insured, but the individual transactions themselves are held as strictly private and confidential.

REDUCED RATES. NO PROFITS.

To facilitate Loan transactions, a reduced scale of rates has been adopted, which will be found particularly favorable to the Insured, especially for young and middle-aged persons.

Moderate rates are demanded for Insurance against the contingencies of foreign climates, military or naval service, and voyages to distant countries, also for healthy persons above the age of 60, and for persons of all ages, afflicted with gout, asthma, rupture, or other serious maladies.

Prospectuses, detailing more particularly the various advantages offered by this Incorporation to the public, with Tables of the Rates both for Life and Fire Insurance, may be obtained by applying at their Office, No. 47, George Street, Edinburgh, or at any of their authorized Agents throughout the Empire.

LIFE INSURANCE COMPANY.

CAPITAL, £750,000.

ALEXANDER GIBSON, and GEORGE GOOLD, of the British Linen Company Bank, Agents for Edinburgh.

ROBERT BOWES MALCOLM, Esq. M. D., Consulting Physician for Edinburgh.

Persons insuring at this Office will derive two important advantages.—First, The most effectual security is provided for payment of losses. Not only will the premium received upon policies be carefully invested, and accumulated for that purpose, but a capital of Seven Hundred and Fifty Thousand Pounds has been subscribed, to answer any possible deficiency.

Secondly, Upon every policy effected for the whole term of life, the insurer will participate in the profits of the Company, by having periodical additions made to the sums insured to the amount of two-third parts

of such clear gains and profits.

At the same time, they will be protected by the ample capital above-mentioned, from every chance of loss. Lives insured with the IMPERIAL are allowed to pass by sea from one part of the United Kingdom to another; and also, in time of peace, to pass in King's ships and packets, or other decked vessels, between British ports and such foreign ports as lie between Ostend and Havre-de-Grace, both included, without extra premium, and without being subjected to the inconvenience of applying for the special leave of the Directors, as heretofore required by the usual condition of life policies.

The attention of the Public is particularly directed to the Charges of the Imperial, for the more advanced

stages of life, which are considerably lower than most other Offices.

The reduced Charges for those who do not participate in the profits of the Company will, it is hoped, be a great accommodation to those who wish to insure the life of another, having a fixed amount of Interest in the life insured.

The Directors of this Company, in order to render the advantages of Life Insurance as general as possible, and to afford every accommodation to persons desirous of effecting Policies, are now enabled to offer to them Two Distinct Plans for that purpose.

By the First Plan, persons may insure for the whole term of life, at the same premiums as are generally required, and participate periodically in Two Third Parts of all Profits made by the Company, and at the same time be protected by a Subscribed Capital from the responsibility attached to societies for mutual insurance.

By the Second Plan, persons may effect all kind of Insurances at a Reduced Rate of Premium, without participating in the Profits of the Company,

PREMIUMS WHICH ENTITLE THE INSURED TO PARTICIPATE IN THE PROFITS.

Insurances on lives above 60 effected by special agreement.

REDUCED PREMIUMS, WITHOUT PARTICIPATION IN PROFITS.

The following new Tables of Premiums, at which the Company grant Insurances, upon the terms of excluding the Insured from a participation of the profits, have been calculated expressly for this Company, and will be found to give to the Insured a considerable immediate reduction in the premiums hitherto required.

LIFE DEPARTMENT.

THIS Company effect Life Insurances on equitable principles, with entire exemption from the liability of partnership.

A Large Capital, subscribed by the Proprietors, forms the security of the assured.

The Premiums may be all paid at once, or in any given number of years, in the option of the party making the Insurance; a plan, the advantages of which are strikingly obvious, as it affords an opportunity of securing a certain provision, independent of all after risks from failure in paying the Premium, or of paying a larger Premium, while the means of doing so may be more at command.

Each Policy for Life is entitled to share the Surplus profits, which are declared every seven years.

All transactions in the Life Department are considered strictly confidential.

Prompt Payment of Claims is made Three Months after proof of Death.

The following rates of Insurance for single Lives are given as specimens from the Tables. The rates for One and Seven years will, it is believed, be found, on comparison, very advantageous to the Public, while Insurances for the whole period of Life are equally so, if the benefit to be ultimately derived from a participation of the profits is taken into account.

The large accumulated Capital and Annual Revenue of this Institution, (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the public the full advantages arising from the principle of its constitution, combined with the utmost measure of SECURITY.

The great value of the principle of mutual contributionship, or, as it is generally termed, MUTUAL ASSU-RANCE, on which this Society is founded, is now well known. By the operation of this principle, taken in connexion with the careful selection of lives, and an economical management of the Society's business, it is evident that the advantages of Life Assurance are secured to their utmost possible extent. Indeed, they only require to be known and understood to be fully appreciated; and so rapidly accordingly has been the growth of this Society, that, during the last sixteen years, the annual revenue has increased from L.2300 to between EIGHTY and NINETY THOUSAND POUNDS STERLING per annum, and the accumulated Fund from L.3000 to nearly Four Hundred and FIFTY Thousand Pounds Sterling; and both are in a state of steady and rapid

Assurances may be effected with this Company on two plans. By one of these, parties have it in their power to participate very largely in the profits of the Company, and to secure advantages not inferior to those accruing under a system of Mutual Assurance, without incurring any risk or responsibility whatever; an undoubted guarantee for the fulfilment of the Company's engagements being provided by their subscribed capital. By the other plan, parties who may desire to secure only a certain fixed sum payable upon their own decease, or upon the death of any other person in whose life they may have an interest, without any acditions to their policies, have an opportunity of transacting on very favourable terms with the Company, considerable modifications of the Rates of premium applicable to this species of Insiness being allowed.

The Company also grant Assurances for limited periods, and on the various combinations of Joint Lives and Survivorships, as well as Immediate and Deferred Annuities, and Endowments, on moderate terms.

Premiums may be made payable yearly, half yearly, or quarterly, according to the inclination of parties.

Military men are not charged with extra Premium unless called into actual service. Parties going abroad are assured on reasonable terms.

Onerous Assignees to Policies opened by persons on their own lives, when duly admitted by the Company as the holders, will be considered to stand in an equally (avourable situation as if they had been the original assurers.

Edinburgh and Dalkeith Railway,

AND LEITH BRANCH RAILWAY.

The Coal of the Mid-Lothian Coal Fields, the finest in Scotland, is to be had, in every variety, in the Railway Depots in Edinburgh and Leith; and the Coal sent to those Depots is carefully selected, and hand-picked, to render it fit to be sold in those great markets, where competition makes character and quality so essential. The Railway Act provides for the protection of those who use Railway borne Coal against the frauds so common in the coal trade; and, to render that protection effectual, the Public have only to attend to the following instructions:—

1st. Never receive Coals, said to have been brought from the Railway, without a certificate from one of the Railway Company's Weighers. In the Edinburgh Depot, the Chief Weigher is Mr William Murray—the Assistant Weigher—John Hamilton. In the Leith Depot the Weigher is John Somerville.

2dly. Attend to the hour of departure marked in the Certificate; and if the Carter appears to have travelled under the rate of three miles an hour, reject his

3dly. Never allow the Certificate to be kept and carried away by the Carter.

4thly. If you deal with the Coal Proprietors, or with the Coal Merchants of the Railway Depot, a fraud can never be practised on you; but, no matter with whom you deal, if you suspect fraud, you have only to call at the Depot and inspect the Entry in the Weigher's Book, or to enclose the certificate back to the Weigher, to have it ascertained whether it is genuine, and whether the Coals to which it applies are of the kind you had ordered. The Consumer has thus a complete check upon the Coal Merchant, and the Coal Merchant upon his Carter. On the contrary, he who receives Coals from the Pits by Carts, or from any petty Coal yard, has no means of assuring himself that they are not wholly or partly of a different quality and weight from what he had ordered.

It is especially to be remembered, that the Railway Company and their Officers have no common interest with the Coalowners, or the dealers in any article carried on the Railway; they only furnish the means of transport; and it is their interest to see justice done to the public, in which the Officers exercise the functions of a Police, in virtue of powers conferred by the Railway Act : hence the great distinction between the certificates issued by the Railway Weighers, and those pretended certificates that are issued from some of the private Coalyards throughout the town. The Coal Merchants, who have offices in the Railway Depot, have no private Coalyards; they supply their Customers directly from the Waggons or the Stores of the Coal Proprietors, by which the Depots of the Railway are occupied. The respectable portion of the Coal Mer-chants in Edinburgh and Leith have a great advantage in supplying their Customers directly from the Stores of the Coal Proprietors in the Railway Depots; for they save thereby the expense of private Coalyards, and of storing, selecting, and loading, and through the Railway Weigher's Books, they can always obtain a check upon their Carters, and evidence of their own honesty.

Those who are not acquainted with any Coal Merchant on whom they can depend, should address orders for Coal to the Coal Proprietors' Private Agents and Storekeepers in St Leonard's Depot, who are—

For Marquis of Lothian, . Mr Lyle.
Sir John Hope, . Mr Moffat.
Robert Dundas, Esq.
Messrs Stenhouse. . Mr R. Stenhouse.

Or to any of the Coal Merchants of the Railway Depot, whose names are—Mr Somerville, Mr Manny Mr Johnstone, Mr Leechman, Mr Robt. Brown, Mr Watt, Mr Armstrong, Mr Charles Brown, Mr Begbie, Mr Bell, Mrs Wilson, Mr Michael Fox, and Mr Wilson.

No coals are allowed to be weighed in the Railway Depot, except those purchased there. I shall be happy to give further information to all who may desire it.

The Railway Coaches to Dalkeith, Fisherrow, Portobello, &c. depart from Edinburgh Depot at 8, 10, 12, 2, 4, 6, and a quarter after 8.

Laboratorp.

(Established for upwards of Fifty years,) 100, SOUTH BRIDGE, near the Tron Church.

DR E. D. ALLISON, late Fellow of the Royal College of Physicians, and Medical Officer of the New Town Dispensary, &c., most anxious to retain the Public Confidence hitherto so liberally reposed in him, respectfully states, that no consideration will ever induce him to swerve from the decided and peremptory rejection of INFE-RIOR or CHEAP Drugs, generally either Adulterated or Old, the purchase of which, when health and safety are concerned, is not only uneconomical, but in his judgment HIGHLY CRIMINAL. Dr A. has now had considerable experience of the value of his former practical engagements as a Physician, in PERSONALLY conducting the highly responsible duties and details of a Laboratory, and he has the happiness to know that his UNDIVIDED ATTENTION to the preparation of all Drugs and prescriptions entrusted to him from all parts of Scotland, has not unfrequently either prevented or rectified errors of very great importance.

INVALUABLE DISCOVERY! KREOSOTE, A SPECIFIC FOR TOOTHACHS AND CARIOUS TEETH.

DR ALLISON ventures to direct the attention of the public to the qualities of this very remarkable substance, lately discovered by the celebrated Dr Reichenbach, Morayia.

It has been found, by one application, and without the necessity of stuffing, to afford immediate, conflete, and "permanent relief from the tortures of Toothach, arising from caries of the teeth, which it speedly Arrests, (without the slightest injury to the enamel, or sound teeth, and in Rheumatism of the Teeth or Gums, and has scarcely failed even as a preyentive in cases apparently incurable, in which it has been tried by many of the most eminent practitioners, in private practice or in public hospitals, both on the Continent and in this country.

ITS SUCCESS AMONG ALL CLASSES IN THIS CITY AND THROUGHOUT SCOTLAND CONTINUES TO BE TRULY ASTONISHING, as may be readily testified by many professional gentlemen, including Professors of the University and Families of the first Distriction, to whom Dr A. has been permitted, in gratitude, to refer by name,

at once, if required.

One medical gentleman in this city, who had formerly occasion to extract twelve diseased teeth, on an average, per week, has not, by using the Kréosote, found it necessary to perform that operation oftener than three times during the preceding six months. A Dentist in this city, who has purchased a large quantity of Kréosote from Dr. A. has, by the sole application of it, cured the Toothach in many persons who had come to him to have their teeth extracted.

The remarks, &c. which accompany a bottle of Kréosote (price 2s. 6d.), are submitted with a view to prevent any doubt which may be naturally entertained regarding its safety; and, in addition to copious directions, &c. Dr A. will, verbally or in writing, give every information required, and apply the Kréosote when wished.

Nearly a thousand cases of violent Toothach have been lately cured by Dr. A.

ately carea by Dr. A.

GENUINE CAMOMILE PILLS. EQUAL, at least, if not superior, to any yet PREPARED.

These truly valuable PILLS have extensively been found to possess EXTRAORDINARY and PERMANENT efficacy in almost every variety of Bilious, Liver, and Stomach complaints, particularly Indigestion, Hysteria, Fla-

tulence, Giddiness, Headach, &c. They restore the appetite—invigorate the constitution, enfeebled either by long previous disease, or by residence in warm or unhealthy climates—and, by giving, in a few weeks, strength and energy to the whole system, and acting middly as an aperient, remove the tendency to constipation, so very annoying to sedentary and delicate persons, particularly females.—They contain, in such a remarkably and peculiarly concentrated degree, the stomachic and aromatic properties for which Camomile has in every age and country been so justly esteemed, that twelve pills are equal to four ounces of the flowers—and consequently possess, either in mildness, safety, or efficiency of operation, under any circumstances, either of diet, age, or habit, pre-eminent virtues as a stomachic medicine.

The Directors being anxious that the utmost facility shall be afforded for Practice on the Piano, have engaged additional assistance, and by affording an extension of time to the Drawing Class, they feel confident in stating that both these Departments are now placed on a most efficient and satisfactory basis.

Every attention has likewise been given to the arrangements for the Junior Pupits of the Institution; and from the plans now in operation, the Directors feel perfectly satisfied, that pupils of even ten years of age will derive as much benefit from the system, and advance as steadily in their education,

as ladies of a more advanced age.
